DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-21 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by by Berg (cited by the applicant).

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Carr (5,044,463) or Powers et al. (Cited by the applicant) in view of Leonard (cited by the applicant).

Art Unit:

Carr or Powers et al. discloses the claimed invention except for the use of a detectable insert for enabling recovery of the earplugs. Leonard discloses the use of a detectable insert in the earplugs so that if lost, the earplugs can be traced. It would have been obvious to one of ordinary skill in the art at the time the invention was made to provide the earplugs of either Carr or Powers et al. with a detectable insert as taught by Leonard for the purpose of enabling recovery of the earplugs when lost.
